

Figure 1 consists of 12 line drawings arranged vertically, illustrating the stages of chick development. The drawings are labeled with numbers 1 through 12. Stage 1 shows a single cell. Stage 2 shows a two-cell embryo. Stage 3 shows a four-cell embryo. Stage 4 shows a morula. Stage 5 shows a blastula. Stage 6 shows a gastrula. Stage 7 shows a neurula. Stage 8 shows a stage with a visible head. Stage 9 shows a stage with a visible beak. Stage 10 shows a stage with a visible tail. Stage 11 shows a stage with a visible wing. Stage 12 shows a fully formed chick with a beak and legs.
